ConformEdge Referral Partner Pitch — Construction Sector

One-pager for approaching construction companies, SHEQ managers, and safety consultants

---

The Problem They Know

Construction in South Africa operates under heavy compliance pressure:

- **CIDB grading** requires demonstrated safety management systems — no system, no tender
- **OHS Act** mandates documented risk assessments, safety files, and incident registers
- **ISO 45001** is the baseline requirement for Tier 1 contractor pre-qualification (Eskom, Transnet, SANRAL, municipalities)
- **Incident reporting** — late W.Cl.2 (COIDA) submissions trigger penalties; fatalities require SAPS 277 within 24 hours
- **Work permits** — hot work, confined space, heights — still managed with carbon-copy books on most sites

The result: Safety officers spend more time on admin than on-site safety. Audit prep takes weeks instead of hours.

What ConformEdge Does (30-Second Version)

ConformEdge is a **cloud-based compliance management platform** purpose-built for SA construction:

- **ISO 9001 + 14001 + 45001** — gap analysis, assessments, audit pack generation
- **Incident management** — near-miss to fatality, W.Cl.2 auto-generation, root cause analysis (5-whys + fishbone), LTIFR tracking
- **Work permits** — 7 types with digital sign-off, auto-expiry, extension requests
- **Equipment register** — calibration tracking, maintenance scheduling, inspection checklists (13 WRC templates)
- **Subcontractor compliance portal** — track contractor certifications, pre-qualify against your standards
- **Mobile PWA** — works offline on construction sites, camera for evidence, digital signatures
- **AI document classification** — upload any compliance document, auto-filed to the correct standard/clause

---

The Referral Opportunity

Simply refer companies you know. We do the rest.

What You Do	What Happens
Share your referral link with a construction company	We track the lead automatically
They sign up and subscribe	You earn commission
They pay monthly/annually	You earn 10% for 12 months

Commission Examples

If they subscribe to...	Monthly Fee	Your Annual Commission
Essentials (small contractors)	R2,299/mo	**R2,759/yr**
Professional (mid-size, most common)	R5,499/mo	**R6,599/yr**
Business (multi-site, subcontractors)	R8,499/mo	**R10,199/yr**

Refer 3 Professional clients = R19,797/yr. Refer 10 = R65,990/yr.

Why Construction Companies Will Say Yes

1. **CIDB/tender compliance** — generates audit packs that satisfy Tier 1 pre-qualification requirements
2. **One platform** — replaces safety files, permit books, incident registers, equipment logs, and subcontractor spreadsheets
3. **Site-ready** — mobile app works offline, captures photos and signatures on-site
4. **Subcontractor management** — portal for tracking contractor compliance documents and certifications
5. **Cost** — R2,299–R8,499/mo is less than a single safety officer's daily rate

---

Your Talking Points

Opening line:

> *"Do your clients still manage safety files and incident logs on spreadsheets? There's a platform built for SA construction that handles ISO 45001, incidents, work permits, and equipment — all in one place. I can send you a link to try it."*

For SHEQ consultants serving contractors:

> *"Your clients need safety management systems for CIDB grading and tender pre-qualification. ConformEdge gives them a system that generates audit-ready documentation. You can refer them and earn 10% commission, or become a Consulting Partner and manage multiple clients from one dashboard."*

If they're price-sensitive:

> *"Essentials starts at R2,299/mo — that's less than a day's penalty for a late COIDA submission. And it covers ISO 9001, 14001, and 45001 all in one."*

How to Get Started

1. Register at: **conformedge.isutech.co.za/referral/register**
2. Approved within 24 hours
3. Get your referral link + dashboard
4. Start sharing — earn when they convert

Free to join. No sales targets. No management required.
