ConformEdge Referral Partner Pitch — Manufacturing Sector

One-pager for approaching manufacturing companies, quality managers, and industrial compliance officers

---

The Problem They Know

SA manufacturers face a compliance triple threat:

- **ISO 9001** (Quality) is the minimum for supplier qualification — most OEMs and retail chains require it
- **ISO 14001** (Environmental) is increasingly mandatory, especially for export markets and ESG reporting
- **ISO 45001** (Safety) — OHS Act compliance plus client requirements for workplace safety systems
- **POPIA** — processing employee data, supplier data, and customer data requires documented information management
- **Audit fatigue** — separate systems for quality, environmental, and safety means preparing for 3 audits independently

The result: Quality managers maintain 3+ parallel document systems. Audit prep takes 2-4 weeks. Non-conformances slip through the gaps.

What ConformEdge Does (30-Second Version)

ConformEdge is an **integrated management system (IMS)** that handles multiple ISO standards in one platform:

- **ISO 9001 + 14001 + 45001 + POPIA** — all managed together with cross-standard mapping
- **Integrated audits** — assess against multiple standards simultaneously
- **Gap analysis** — AI-powered identification of compliance gaps across all standards
- **Document management** — AI auto-classification to the correct standard/clause
- **CAPA tracking** — corrective actions linked to audit findings with due date enforcement
- **Incident management** — from product non-conformance to workplace injuries, with COIDA reporting
- **Objectives & KPI tracking** — quality metrics, environmental targets, safety KPIs in one dashboard
- **Management reviews** — agenda templates, action items, attendance tracking

---

The Referral Opportunity

Refer manufacturing companies in your network. Earn passive commission.

What You Do	What Happens
Share your referral link	We track the lead
They sign up and subscribe	You earn commission
They pay monthly/annually	You earn 10% for 12 months

Commission Examples

If they subscribe to...	Monthly Fee	Your Annual Commission
Professional (single-site factory)	R5,499/mo	**R6,599/yr**
Business (multi-site, full IMS)	R8,499/mo	**R10,199/yr**
Enterprise (large operations)	From R16,999/mo	**From R20,399/yr**

Why Manufacturers Will Say Yes

1. **One platform for 4 standards** — ISO 9001 + 14001 + 45001 + POPIA managed together, not in silos
2. **Integrated audits** — prepare once, assess against multiple standards
3. **AI document classification** — upload any quality document, auto-filed to the correct clause
4. **Supplier/subcontractor compliance** — track supplier certifications and pre-qualification
5. **Management review automation** — structured agenda, action tracking, attendance — satisfies Clause 9.3 across all standards
6. **Export-ready** — audit packs that satisfy international client requirements and certification bodies

---

Your Talking Points

Opening line:

> *"Are you managing ISO 9001, 14001, and 45001 in separate systems? There's a platform that integrates all three — plus POPIA — in one dashboard with AI-powered gap analysis. Want me to send you a link?"*

For quality consultants:

> *"Your manufacturing clients need IMS implementation for multi-standard compliance. ConformEdge handles the technology — you provide the consulting expertise. You can refer them for 10% commission, or become a Consulting Partner and manage their compliance from a unified dashboard."*

If they're already certified:

> *"Certification is just the start. ConformEdge keeps you audit-ready year-round — not just the week before the surveillance audit. It tracks non-conformances, CAPAs, objectives, and management reviews continuously."*

How to Get Started

1. Register at: **conformedge.isutech.co.za/referral/register**
2. Approved within 24 hours
3. Get your referral link + dashboard
4. Share with your network

Free. No targets. No commitment.
